Note the large growth in enrolment in the English program in 2022 after several years of significant decline from historic levels.

The City is monitoring enrolment at the school because the utilization rate is currently below 70%.

The utilization rate is also an issue in a number of other elementary schools in South Calgary (Acadia 80%, but <70% in 2021; Braeside 38.82%; Ethel M Johnson 53.13%; Eugene Coste 56.93%; and Nellie McClung 65.50%). Haysboro had previously had an enrolment challenge (207 students), but now has a 91.59% utilization rate because of a conversion of a block of space into a district office.
